In the last 12 months, we added 1,026 acres of conserved land to make a total of 46,942 acres conserved so far. Here's a look at the last 5 years:

WHO WE IMPACT

“ Our family has been farming this land for eight generations, and now it is permanently protected. It is important that land like our farm is conserved so that we can provide good, wholesome foods for the consumer, and for that reason, I believe that it is essential that our fellow farmers do all they can to conserve their farmland too. ”
