Conservation is leaving a lasting legacy across our region.

Three Rivers Land Trust works to expand public lands, save family farms, protect local waters and wildlife habitat, and conserve important national defense lands around Fort Bragg and Camp Mackall.

"We wanted to conserve what we have worked to accumulate for future generations and for the wildlife that call this place home."

Robert Spivey, Landowner,
Moore County

"Development is rapidly changing the natural landscape. Putting land in a conservation easement with TRLT is a way to be faithful to earth's future generations."

Elizabeth Jordan, Landowner,
Iredell County

"We are grateful to TRLT for helping us steward this special place so it can remain untouched and appreciated for generations to come."

Brittany Paschal, Landowner,
Moore County

Connected to the land. Committed to Conservation. | 704-647-0302 | trlt.org
